## description

the 2-1/2" - 12" backflow preventer shall be an Apollo model DCLF4A lead free\* double check valve. the assembly shall be manufactured in america and carry a 5-year Apollo factory warranty. the TriForce™ center stem guided check valves shall feature reversible silicone rubber seat discs. the check valves shall be held in place by stainless steel snap-in retainers (2-1/2" - 6") or stainless steel studs & nuts (8" - 12"). access to the check valves shall be by an Apollo quick-connect stainless steel coupling (2-1/2" - 6") or grooved couplings (8" - 12"). the bodies shall be stainless steel in 2-1/2" - 8" sizes and FDA epoxy coated ductile iron in 10" & 12" sizes. the lead free\* Apollo ball valve test cocks shall have stainless steel handles. the assembly shall prevent contamination of the potable water supply due to back-siphonage or backpressure from substances that are non-health hazards. the pressure drop across the assembly shall be documented by ASSE or USC FCC&HR approval curves.

## FLOW CURVES

- notes:
1. flow curves directly reflect data collected by an asse approved laboratory.
  2. flow curves shown were recorded with gate shut-off valves. contact factory for more information.
  3. all data points are based on ASSE increasing flow data, from zero GPM to rated flow (opening curve).
  4. for high flow rates/pressure loss information - contact factory.
